

PIG DRI Loose Absorbent

PLP213-1

For Oils, Coolants, Solvents & Water, Absorbs up to 18.9 L per bag, 1 Bag

This silica-free loose absorbent combines clay's heavier consistency with high absorbency to pull industrial liquids from your floor. Plus, it doesn't blow around, making it great for outdoor use.

- Unlike clay, which is simply coated with liquid, fast-wicking cellulose-based kaolin granules begin to soak up liquid the moment they touch the spill
- Contains 47% post-consumer recycled cellulose and 53% kaolin, ideal when "green" products are desired or required.
- Silica-free composition does not pose the health hazards associated with breathing in clay dust
- Lightweight absorbent is easier than clay to carry and use without injury
- Absorbs and retains oils, coolants, solvents and water
- Can be incinerated after use to reduce waste or for fuels blending

Specifications

Absorbency Per Selling Unit	Up to 18.9 L per bag
Colour	Grey
Composition	60% Cellulose; 40% Kaolin
Fluids Absorbed	Oils, Coolants, Solvents & Water
Recycled Material	47% Post-Consumer Recycled Cellulose Waste
Volume	30 ltr. Bag
Weight	18.1 kg
Sold as	1 Bag
