

PIG FIRE-DRI

PLPE270

For Oils, Coolants, Solvents & Water, Absorbs up to 15 L per bag, 1 Bag

PIG FIRE-DRI is a granular organic product, suitable for a wide range of industrial applications. With its fireproof property, it can be used for liquids and applications where the use of fire resistant products is desired.

- PIG FIRE-DRI is a vegetable absorbent made up of resin wood dust, dried at high temperatures and processed to develop a fireproof behaviour
- After absorbing liquid spills, it leaves clean, dry and safe surfaces, free from oily sheen
- This fire-retardant material is capable of absorbing more than 3kg of oil per 1kg of product
- This natural, renewable resource absorbent has a low environmental impact since it can be eliminated by incineration
- Non-toxic material contains no silica and is safe to handle and use
- Non-abrasive, lightweight material is ideal for petrol stations, garages, airports, service companies, cleaning companies, railway stations, transport companies, emergency equipment, firefighters, army and more

Specifications

Absorbency Per Selling Unit	Up to 15 L per bag
Colour	Green
Composition	Fire Retardant Softwood Fibre
Fluids Absorbed	Oils, Coolants, Solvents & Water
Volume	30 ltr. Bag
Weight	6 kg
Sold as	1 Bag
