

Stat-Mat Absorbent Pads

MAT214

Heavyweight, 38 cm x 51 cm, 100 pads per bag

Clean up spilled fuels and solvents with the only pads proven to dissipate static.

- The best mat you can buy to reduce the risk of electrostatic discharge; a critical precaution around flammable liquids and vapours
- Stat-Mat Pads and Rolls pass ANSI and MIL-spec standards for static decay and surface resistivity, making them perfect for fuelling areas and solvent clean-up
- Absorbs and retains oils and oil-based liquids - including acetone, benzene, petrol, toluene, xylene, mineral spirits and jet fuels - without taking in a drop of water
- Layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout the mat for faster, easier clean-up
- Highly absorbent, fine-fibre construction won't leave behind liquids or fibre residue
- Packaged in special static-dissipative bags to help reduce static charge build-up
- Floats to clean up spills on water
- Flame-resistant material won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- Pads are ideal for catching drips and soaking up spills
- Easy-tear perforations let you take only what you need, so you use less mat and save money
- Heavyweight construction is highly durable and absorbent for demanding tasks and large-volume clean-ups

Specifications

Absorbency Per Selling Unit	Up to 83.6 L per bag
Certification	ANSI/ESD STM11.11, MIL-STD-3010C
Colour	White
Composition	100% Polypropylene
Fluids Absorbed	Oil-Based Liquids But Not Water
Length	51 cm
Mat Weight	Heavyweight
Packaging	Bag

Perforated	Perforated down centre Widthwise
Poly Backing	No
UV Resistant	No
Width	38 cm
Weight	7.71 kg
Sold as	100 Pads per Bag
