

PIG HazMat Chemical Absorbent Mat Roll

MAT309

Heavyweight, 76 cm x 46 m, 1 roll per bag

Specially-treated mats are the best on the market for absorbing highly concentrated corrosives like 98% sulfuric acid and 30% sodium hydroxide.

- Absorbs the widest range of acids, caustics and unknown liquids - even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant mat won't degrade or cause a dangerous reaction upon contact with corrosive spills
- Layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout the mat for faster, easier clean-up
- Highly absorbent, fine-fibre construction won't leave behind liquids or fibre residue
- Absorbs and retains most acids, caustics and unknown liquids
- Pink colour is easily distinguishable to ensure workers use the correct mat during a spill emergency
- Flame-resistant material won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- Rolls are ideal for covering large areas and soaking up spills
- Heavyweight construction is highly durable and absorbent for demanding tasks and large-volume clean-ups

Specifications

Absorbency Per Selling Unit	Up to 152.4 L per bag
Colour	Pink
Composition	100% Polypropylene
Fluids Absorbed	Acids, Caustics & Unknowns
Length	46 m
Mat Weight	Heavyweight
Packaging	Bag
Perforated	Perforated Every 25cm Lengthwise & Centred Widthwise
Poly Backing	No
UV Resistant	No

Width	76 cm
Weight	13.6 kg
Sold as	1 Roll per Bag
