

# PIG SUPER Absorbent Socks

## PIG214

8.25 cm x 213 cm, Absorbs up to 91.2 L per box, 12 socks per box

The most absorbent sock in our lineup is great for high-volume machine leaks. Soaks up nearly twice as much liquid as other maintenance socks.

- Nobody knows more about socks than New Pig - we invented them!
- Extra-thirsty, formable socks hug corners and walls, surround higher-volume machine leaks and contain spills to keep workers safe
- Cellulose filler is highly absorbent for big leaks and spills; super absorbency means that you replace them less often
- Stitch-bonded, polypropylene skin resists bursting; reduces dust and holds in liquid, even when saturated
- Absorbs and retains oils, coolants, solvents and water; not recommended for acids, caustics or other corrosive liquids
- 85% recycled cellulose filler is ideal when "green" products are desired
- Wringable for reclaiming up to 65% of absorbed liquid
- Can be incinerated after use to reduce waste or for fuels blending

## Specifications

Absorbency Per Selling Unit	Up to 91.2 L per box
Colour	Grey
Composition	Skin - Polypropylene; Filler - Flame-Retardant Cellulose
Exterior Diameter	8.25 cm
Fluids Absorbed	Oils, Coolants, Solvents & Water
Length	213 cm
Recycled Material	85% Mixture of Pre- and Post-Consumer Recycled Cellulose Filler
Weight	12.43 kg
Sold as	12 Socks per Box
