

Utility Board for Adhesive-Backed Grippy Mat

GRP001

For Pig Grippy Mats

Use the same cutting guide that we use to install Grippy Mat in retail, grocery and commercial environments - it's fast, easy and professional.

- Convenient, pre-scored "template"; guides your blade, producing clean, accurate cuts
- Create perfect corners or 45° angles for working around obstacles or making specific shapes
- Serves as a cutting board to prevent damage to floors during cutting
- Can also be used as a float to quickly smooth out Adhesive-Backed Mat in one pass
- Predrilled holes help you align tool and mat with tile and grout lines
- Connect two boards together to cut or install mats wider than 91cm or make diagonal cuts
- Designed for use with our Safety Cutting Knife (GRP012, sold separately)

Specifications

Colour	White
Composition	HDPE
Depth	15 cm
Use With	Pig Grippy Mats
Width	97 cm
Weight	1.01 kg
Sold as	1 Each
